 - **Location:** Gr.Noida(UP) | [LinkedIN](#) | [Github](#) | [Portfolio](#)
-

OBJECTIVE

Full Stack Developer with hands-on experience in Next.js, React, MongoDB, and JavaScript, delivering scalable web applications and AI-integrated solutions. Proficient in building RESTful APIs, optimizing performance with SSR/SSG, and implementing

TECHNICAL SKILLS

Frontend: React.js | Next.js | Tailwind | ShadCN

Backend: Node.js | Express.js | MongoDB | REST APIs | Redis | PostgreSQL

Tools: Git | GitHub | Linux | Postman | Compass | Docker

Languages: C/C++ | JavaScript | TypeScript | Java

Relevant Technologies: DSA | OS | OOPs | DBMS | CN | Software Engineering.

EXPERIENCE

Java Web Development Trainee--HCLTech(Nov-2024-March-2025)

- Trained in Core Java, Spring Boot, APIs, JDBC & DB integration.
 - Built REST APIs using Java & Spring Boot, improving application response time by 20%.
 - Implemented OOP principles and reusable components to enhance maintainability.
-

PROJECTS

Pizza Hub: Food Delivery Application:[\[Live\]](#)

- Built a full-stack platform with browsing, filtering, cart management, and JWT authentication.
- Implemented payment and real-time order tracking and Improved checkout performance by 30%

Tech Stack: Next.js, React.js, Express.js, TailwindCSS, Prisma, Socket.io, MongoDB

Messages & Video Conferencing:[\[Live\]](#)

- Built real-time chat + audio/video calling using Mediasoup & Socket.io.
- Added authentication, file uploads, scheduling & secured backend.

Tech Stack: React.js, Vite, Redux, Styled Components, Mediasoup, Node.js, MongoDB

Brand Mentions & Reputation Tracker:[\[Live\]](#)

- Created real-time tracking with AI-powered sentiment analysis & clustering.
- Integrated Google Gemini AI for insights & used Chart.js for analytics.

Tech Stack: Next.js, React.js, Tailwind CSS, NextAuth, MongoDB, Gemini AI, KMeans, TF-IDF

EDUCATION

Bachelor of Technology (CSE) (Sep-2022–Sep-2026)

KCC Institute of Technology & Management

SGPA: 7.5
